

Increase the draught of vessels
that anchor at Suez Inner Anchorage

The Suez Canal Authority has decided to increase the draught of vessels that anchor at Suez Inner Anchorage to be 40 ft in area (A) and 42 ft in area (D), instead of 38 ft, except for L.P.G. L.N.G. oil tankers: loaded and ballast (NGF) and loaded chemicals.

This circular comes into effect as of 1/8/1996.
